CELEBRATING 20 YEARS

Sparks are still flying for electrical company

A YEOVIL-based company is fighting the recession as it celebrates its 20th anniversary.

Business is booming for Andrew and Jill Jackson, owners of D L Crease Limited – an electrical contracting company based on Cromwell Road which, besides the thriving contracting business, also has a shop selling electrical products.

D L Crease was originally established by Dennis Crease in 1961, and was then bought by the couple who are friends of the Crease family, in 1989.

It seemed a natural step for trained electrician Andy and partner Jill, who had been working in banking.

Andy manages the contracting business, as well as providing practical advice for shop customers when required, while Jill oversees the administration and management of the accounts.

Jill said: "We have been the current owners of D L Crease Limited for 20 years, and feel it is time to celebrate. We would like to thank all of our customers, past and present, for supporting us."

The success of the business has always been based on service, combining retail and contracting.

If you are looking for electrical items large or small, D L Crease can not only offer this, but can also provide qualified advice about which product is best for you.

If what you want isn't in

store, it can be ordered in.

In addition, D L Crease is a Dimplex heating specialist, offering advice on products and installation, as well as repairs and maintenance, which enables them to offer customers a fully supported service.

A large part of the business is based on contracting work, from major to minor contracts, both locally and throughout the South West region.

As well as working on new builds, the company carry out test and inspections providing customers with detailed reports on the condition of their electrical installations.

It has worked on some major projects, such as stately homes, cash centres and banks.

It provides a full installation service for intruder alarms, fire alarms, emergency lighting, electrical installations and maintenance.

D L Crease is a member of the National Inspection Council for Electrical Installation Contractors (NICEIC) and the Security System and Alarm Inspection Board (SSAIB) which audit its work, ensuring all works are of a certifiable standard.

"We pride ourselves on the quality of the workmanship our team offers, most of our staff have been with us over ten years and have a wealth of experience. This, combined with a competitive, reliable and efficient service, means that we have many long-standing customers".

"We believe we are well placed to survive these tough trading times and, most importantly, we want our customers to know we will be here for them."

Anyone wishing to have work undertaken can make an appointment and will be

provided with a free no obligation quotation.

An added bonus for D L Crease customers is they are able to pay their account direct by debit or credit card.
