**GOLD SERVICE:** Directors of Dorset Network Solutions Grahame Newton and Neil Corbett are delighted to be celebrating three years of being a Microsoft Gold Certified Partner.

## DNS celebrating three years of gold standard

BRIDPORT-BASED company Dorset Network Solutions Ltd is celebrating three years as a Microsoft Gold Certified Partner.

Dorset Network Solutions provides outstanding computer and network support for small and medium-size businesses throughout the Dorset and Somerset area.

The company has a diverse client base, which includes chartered surveyors, dental practices, hotels, pubs and builders, to name a few.

Dorset Network Solutions, or DNS, was first established in 2004. Partners Neil Corbett and Grahame Newton have 30 years combined IT experience and all of the engineers possess a range of academic and internationally recognised qualifications in IT, including the MCSE (Microsoft Certified Systems Engineer) 2003, the MCP (Microsoft Certified Professional), the SBS (Microsoft Small Business Specialist) and the CSSA (Certified Sonicwall Security Administrator).

In 2005, the company was awarded the much-coveted Microsoft Gold Certificate Partner award.

This award is a sign of excellent knowledge of information and communication technology, but also represents superb customer service due to the fact the partnership is awarded partly down to customer surveys.

The other requirement to be awarded such a partnership is that engineers are constantly undergoing training and examinations to ensure that they are at the forefront of technology.

Director Grahame Newton said: "We are delighted to celebrate three exciting years as a

*Business owners demand, and rightly deserve, reliable and dependable IT support*

Microsoft Gold Certified Partner.

"Although the pace at which technology is changing is quicker than ever before, it is important to not lose sight of the customers business goals, and to recommend the most suitable solution to achieve them. We have the experience, knowledge and integrity to provide these solutions and this is the foundation of the many long and supportive relationships we have with our customers."

DNS services range from installing single PCs, to cabling and installing a secure network on your business premises.

It is all followed up with tailored support options, in which experienced and certified engineers will ensure the smooth day-to-day running of your systems.

The company also provide and repair hardware, and remove and dispose of old computer equipment. Whatever your needs may be, give Dorset Network Solutions a call and see what they can offer you.

You are guaranteed honest advice, explained to you in simple terms, and you can also

be certain of a rapid response whenever you are in need of assistance.

Customers with a DNS contract are served by a 24-hour call-out service, and as a Microsoft Certified Partner, the company has a link with the developers at Microsoft.

Both Neil and Grahame value the importance of a good relationship with clients and will endeavour to see customers face to face.

Dorset Network Solutions is also a Microsoft Assure Education Reseller, which means they are able to support school ICT networks at incredibly affordable rates.

The company has links with Hewlett Packard, and is also an Axis partner and can install webcams, like the ones used by West Dorset Leisure Holidays. You can check out these cameras by visiting [www.wdlh.co.uk](http://www.wdlh.co.uk)

Director Neil Corbett said: "Business owners demand, and rightly deserve, reliable and dependable IT support. The level of support we offer has been afforded by more than 30 years of experience with small business and multinational companies alike."

Onsite, telephone and remote support services are available and you can feel assured that your systems will be monitored 24 hours a day, seven days a week.

Customers are offered all this at extremely reasonable prices. Neil said: "We are yet to lose a customer."

For more information, or to book a no obligation pre-initial consultation, call 01308 458259. You can also visit the website [www.dnsols.com](http://www.dnsols.com) for further details.
