Yeovil Somerset BA20 2HP

# A great solution for all your signs

**GREAT TEAM:** From left, Luke Rance, Matthew Parsons, Kate Murray, Alex Murray and Ben Goode.

SIGN Solutions in Yeovil has moved to a new location on the Lynx West Trading Estate.

This move coincides with the company celebrating its tenth anniversary.

Kate and Alex Murray began running the company from home in 1998. The business grew very quickly and it soon moved to premises in Preston Road. Over the last ten years, Kate, Alex and the business have become very well known, and well respected throughout the business community.

The new premises at Brympton Way on the Lynx West Trading Estate are much bigger, which provides the staff with a much larger production area and a drive-in area to allow staff to apply vehicle graphics undercover. There is also a large artwork studio and a client consultation room.

All of this means that Alex, Kate and the rest of the staff can offer the highest quality products at the best prices.

In the past, the staff would make signage using computer cut vinyl, building images from single colours. Technology is developing constantly though, and to allow themselves to keep up with the game, the company bought its first digital printing machine in 2004. This allowed them to print in much higher quality and up to one and a half meters wide. And to be at the forefront of the industry, they bought a second machine this year so now they can print 1.83 meters wide.

Early indications of the feedback from customers has been very positive.

Managing director Kate Murray said: "As much as we loved our old premises, they were just too small. It is great to be in a position to truly give our customers the highest standard of service they deserve."

Sign Solutions can create and install all types of signage, banners, vehicle graphics, free-standing signs, A Boards, Street Signs and Illuminated signs, to name a few. Exhibition graphics and posters of any size are also produced in house.

They have created signs for pubs, clubs, restaurants, schools, shops and businesses throughout the Somerset and Dorset area.

Sign Solutions also offers the perfect way to capture a special moment or an event.

From your photos or digital images, Sign Solutions can create high-quality canvases of your favourite images. These can make wonderful gifts, and now is the time to start thinking about those extra-special Christmas presents.

Being from Yeovil, both Kate and Alex strongly believe in the importance of a strong local business community, and want to thank everyone that has made it possible for them to get to where they are today.

Kate said: "When we first moved in to these new premises, the building was nothing more than concrete blocks. A lot of work has been put into the building, and the local companies we have used have been excellent, many of them have advertised here and supported us, we are very grateful for their business in return."

This year, Kate and Alex are

pleased to be working in conjunction with Walsall College and the Roland Academy, and have taken on their first apprentice.

Ben left school this summer after sitting his GCSEs and has worked at Sign Solutions since July. He is undergoing on-the-job training, learn-

ing all aspects of the trade. Sign Solutions is open Monday to Friday 8.30am-5pm.
